Langtree consulting developed the tender and provided the assessment below.

“Langtree Consulting has been commissioned by McKinlay Shire Council to prepare the Detailed Design Documentation, Tender Documentation and undertake this Tender Assessment for the Dalgonally/Millungera Floodway Upgrade Project.

Tenders for this project closed at 4:00pm on Thursday 24th February 2022. Six (6) Tenderers provided tenders with the following (and attached) tender assessment was undertaken:

Tender	Tender Price at Opening	How the Tender was Lodged	Evaluated Tender Price	Comments

This may be an additional cost saving? • They provided a cost of \$51,025.00 + GST for a side-track. This was not included as part of there Tendered Price or the Evaluated Price. I am not sure it is required for this project. • They hand the lowest establishment and disestablishment costs compared to the other tenders due to them being local. • They ranked No. 1 on price by \$21,790.09. If you include the side-track, they drop to No. 2 and possibly No. 3 if you include additional supervision. • The works are programmed for 3 months starting in March 2022. They provided a detailed program with their submission. • They ranked No. 5 on non-price however, they are the only local Tenderer. • If Council decides to award the contract

Special Meeting of Council Tuesday 1st March 2022

Based on our Tender Assessment, that two Tenderers are very close in the overall assessment, and we would recommend that the above queries are resolved with the preferred tenderers prior to award. Notwithstanding this, we believe that Council has two Options:

1. Council awards the contract for these works to Alexander Plant Hire who are local (no side-track option). We would then recommend that Council appoints a consultant to oversee them and provided construction support and guidance; or
2. Council awards the contract to Durack Civil. It is understood that Durack are already in Julia Creek undertaking other project and that their works are of a very high quality with minimal supervision.

Please let me know if you require any additional information.

Regards

Brett Langtree

MANAGING DIRECTOR/PRINCIPAL CIVIL ENGINEER

Option 1 with the extra cost of external oversight is recommended. It is also worth highlighting with them that the project has a definite end date and the external oversight is their for them to learn from for future potential works.

Consultation: Langtree Consulting, CEO

Policy Implications: Nil.

Financial and Resource Implications: Funding is detailed above.
