

Our new Director of Nursing:

We are very happy to welcome our new permanent Director of Nursing (DON)

Julie Seeber.

Julie is a Rural and Isolated Practice (Scheduled Medicines) Registered Nurse and comes to us with skills in Nursing Management, education and quality in a variety of fields including private hospital, rural hospitals, remote clinics, radiology and general practice.

Julie has a real passion for Remote and Rural Healthcare. She is very patient orientated, with high expectations in providing the best care possible for the community at all times. She also believes in encouraging continuous learning and education for herself and all her team.

She is really looking forward to being a part of developing our new Model of Care and also moving into the new hospital building and making it the best facility for our community.

Whilst originally from Western Australia she now calls Queensland home. She has spent the past several years travelling to remote nursing clinics with her dog Tia and enjoys both the challenges that working remotely presents, and the way small town communities rally together.

Julie's daughter Tamara, lives in Brisbane, and Julie is proud to say that she has chosen to follow her into her loved profession of Nursing. Julie is looking forward to road trips exploring the local area, catching up on her skills in crafts and cooking and meeting the locals.

Integrated Model of Care Update

The staff at the MPHS and the Medical Centre have met to discuss our new Model of Care and started to work on ways to make our health service more effective, efficient and community focused.

Please remember your (the Community) input is essential for us to make the health service better for you.

If you have any thoughts or suggestions contact

Watch this space

Whilst time has been lost due to wet weather and restrictions in pouring the slabs due to high temperatures, we have every expectation that by the end of the project, we will be back on time as originally predicted. The roof line can easily be seen from the road and the internal floorplan is more obvious. Updated drawings will be forwarded to staff within the coming weeks however due to turn over of staff, previous drawings have been reissued. Staff will be asked to work with project managers in coming weeks to detail design within rooms.

Have a say in your Health Services.

The next CAN meeting

will be held on Thursday 14 March at 10:30am

All community members are welcome. Teleconference is available, contact Aileen Gabbert for details.
